

BI, Data Science & Analytics / BA's + PM's (Remote)

One of the biggest trends of 2021 is that of companies hiring remotely for the first time.

This has allowed companies to fill roles that were vacant for some time, usually at lower-than-expected salaries.

Not only can you find skills that don't exist in your local area, it can give you a huge competitive advantage over those with a traditional "on-prem" approach to hiring.

This is just a preview of our current candidates - Shift F5 also specialise in placing:

- Software Developers, Web Developers, Software Engineers
- Technical leaders – Heads of Engineering, CTOs, IT Managers, Heads of IT
- Marketing & Digital specialists
- Networking, Infrastructure and IT Security
